

CSPA and OCASC present . . .

TECHNOLOGY AS A TOOL TO ACCELERATE LEARNING

Discover how teachers are using technology, tools and innovative teaching practices to prepare students for tomorrow. Learn how YOU can get involved.

Recent advances in technology from chalkboards to interactive whiteboards, from computers to laptops, tablets and ChromeBooks are transforming classrooms. Teaching and learning are adapting to enable students to become productive, collaborative, digitally literate citizens.

As parents, how can we support our children? Join us and learn about the tools available to students and the initiatives modernizing today's classrooms.

Presented by Kyle Pace

Google Certified Teacher

Kyle has a strong passion for sharing the impact that educational technology can have on adult and student learning.
